Catching up with the global E-Invoicing and E-Reporting developments: The E-Invoicing Exchange Summit Asia re-opens its doors in Singapore

Switzerland, October 2022 – E-Invoicing is no longer the future - it is happening now, and at lightning speed. All around the world businesses and governments are implementing systems for E-Invoicing and E-Reporting. In several countries it is mandatory already or will become soon. But only if implemented in an efficient and consistent way, the huge benefits e. g. real time early warning systems for fraud or cost saving invoicing and reporting processes will be fully realised.

As good as this sounds, there are challenges and hurdles still to overcome: How can processes be standardised and optimised across the globe? How can a truly global interoperability lead to benefits for all stakeholders?

The E-Invoicing Exchange Summit Asia will re-open its doors in Singapore on December 7 and 8, 2022. After a 3-year interruption experts and thought-leaders will share and discuss in-depth information about the recent developments and future trends in the field of E-Invoicing and E-Reporting - with a strong focus on APAC countries. A unique opportunity to get in personal contact with leading experts from governments and industries to elaborate and answer these questions.

Among others, these speakers have confirmed:
